by deleting all language after the enacting clause and by substituting instead the following:

SECTION 1. Tennessee Code Annotated, Title 40, Chapter 39, is amended by adding the following as an appropriately numbered new section:

(a) The general assembly finds and declares that:

(1) Sexual offenders pose a high risk of engaging in further offenses after release from incarceration or commitment, and protection of the public from these offenders is a paramount public interest;

(2) It is a compelling and necessary public interest that the public have information concerning persons convicted of sexual offenses collected pursuant to this chapter to allow members of the public to adequately protect themselves and their children from these persons;

(3) Persons convicted of these sexual offenses have a reduced expectation of privacy because of the public's interest in public safety;

(4) In balancing the offender's due process and other rights against the interests of public security, the general assembly finds that releasing information about sexual offenders under the circumstances specified in this section will further the primary governmental interest of protecting vulnerable populations from potential harm;

public safety and public scrutiny of the criminal and mental health systems that deal with these offenders;

(6) To protect the safety and general welfare of the people of this state, it is necessary to provide for continued registration of sexual offenders and for the public release of specified information regarding sexual offenders. This policy of authorizing the release of necessary and relevant information about sexual offenders to members of the general public is a means of assuring public protection and shall not be construed as punitive; and

(7) The general assembly also declares, however, that in making information available about certain sexual offenders to the public, it does not intend that the information be used to inflict retribution or additional punishment on any such sexual offender. While the general assembly is aware of the possibility of misuse, it finds that the dangers to the public of nondisclosure far outweigh the risk of possible misuse of the information. The general assembly is further aware of studies in Oregon and Washington indicating the community notification laws and public release of similar information in those states have resulted in little criminal misuse of the information and that the enhancement to public safety has been significant.

SECTION 2. Tennessee Code Annotated, Section 40-39-106, is amended by adding the following new subsections (e) and (f) and by relettering present subsection (e) accordingly:
